EXPERIENCE

Musterbox

April 2025 - July 2025

Frontend Developer Intern

- Designed and developed a P2P crypto payment gateway web app with merchant and buyer interfaces, including dynamic user flows for selecting sellers, making bank transfers, receiving crypto, and integrated chat for communication.
- Optimized the Musterbox website's performance, responsiveness, and SEO, improving load times and user engagement.
- Improved performance, load times, and responsiveness of the musterbox gaming webapp to provide smooth user interactions.
- Collaborated with backend and UI/UX teams to ensure smooth API integration, polished interfaces, and accessible, cross-browser compatible user experiences.

Harvoxx Tech. Hub

April 2022 - November 2023

Frontend Developer Intern

Port harcourt, Nigeria

- Developed Homigon, a scalable and interactive real estate web app using JavaScript, HTML, and CSS.
- Collaborated with UI/UX designers to create a responsive and user-friendly interface.
- Worked closely with backend developers to integrate APIs, ensure seamless data flow, and optimize performance.
- Partnered with senior developers, maintaining code quality through Git, code reviews, and best practices.
- Built and enhanced dynamic features, improving user engagement and communication.

PROJECTS

[E-commerce Web Application](#)

Technologies: React.js, Tailwindcss, Context API, Paystack

- Developed a fully responsive e-commerce web application using React.js, JavaScript, HTML5, Tailwind and CSS3, enhancing user experience across devices.
- Implemented a secure and user-friendly shopping cart with a checkout process using JavaScript and the Paystack API for payment integration.
- Integrated RESTful APIs to manage product data and user authentication, ensuring seamless data flow and a dynamic user interface.
- Conducted comprehensive testing and debugging across multiple browsers and devices, ensuring cross-browser compatibility and a consistent user experience.

[CBT Web application](#)

Technologies: Typescript, React.js, Tailwindcss, Firebase

- Designed and developed a fully responsive CBT platform using Typescript React.js, Tailwindcss, and Firebase, ensuring seamless user experience across various devices.
- Integrated Firebase Authentication to implement a secure user login system, enhancing platform security and user data protection.
- Managed the entire project lifecycle, from initial concept and design to deployment and maintenance, demonstrating strong project management and problem-solving skills

SKILLS

Programming Languages: JavaScript, TypeScript, HTML

Frameworks and Tools: Nextjs, Supabase, React.js, Firebase, Git/Github, TailwindCss, Shadcn ui

Soft Skills: Problem Solving, Time Management, Good Communication and Collaboration

EDUCATION

Rivers State University Port Harcourt, Nigeria

September 2019 - October 2024

Bachelor of Technology - Mechanical Engineering

Harvoxx Tech. Hub, Port Harcourt

January 2022 - April 2022

Front end Web Development
